How to forward email attachments
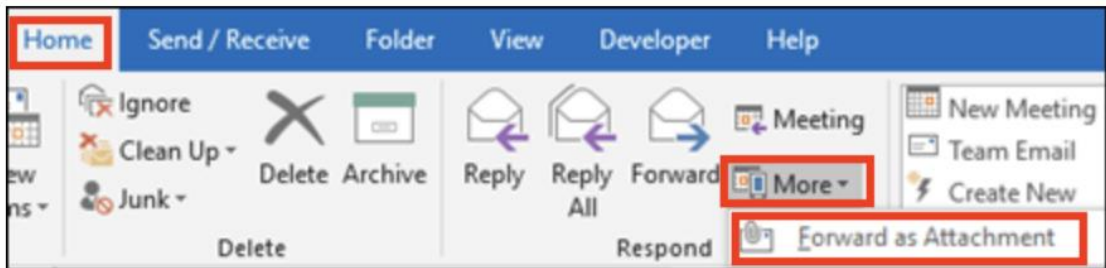

- **Gmail**
  1 - Right click on the message you want to forward in the list of messages
  2 - Click Forward as Attachment
 3 - Fill in the "To" field, and click send

- **Outlook / Hotmail**
  1 - Select the message you want to forward
  2 - On the main Outlook Panel, select More > Forward as attachment

- **GMX**
  1 - Select the message you want to forward and click on the information symbol
  2 - A new window with extended information on the email will open, left click holding for selecting the entire text and copy it by pressing Ctrl+C

  3 - Select the email you want to forward, and click Forward on the upper left

4 - Paste the copied text by pressing Ctrl+V into the message
5 - Fill in the "To" field, and click send

- **Apple iCloud Mail**
  1 - Right click on the message you want to forward in the list of messages
  2 - Click Forward as Attachment
 3 - Fill in the "To" field, and click send

- **Yahoo**
  1 - Open the message you want to forward and click on the three dots in the upper right
  2 - Select View Raw Message
  3 - Select the entire raw message content and copy it

  4 - Click on Forward in the upper right
  5 - Fill in the "To" field
  6 - Paste the raw message you copied right before the content of the forwarded message.

- **Proton**
  1 - Open the message you want to forward and click on the three dots in the upper right
  2 - Select Export and save the message
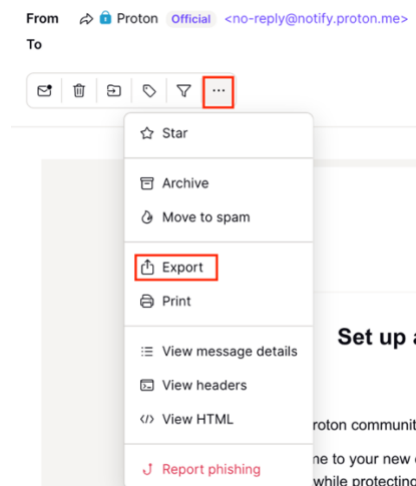

3 - Click new message, and fill in the "To" field
4 - Click to add an attachment, and add the exported email that was saved.
